Introduction

The 13th International Conference on Information Technology: IoT and Smart City, scheduled for December 5-7, 2025, serves as a vital platform for global researchers, academics, and industry professionals to exchange cutting-edge developments in the fields of the Internet of Things, smart city technologies, and digital infrastructure. With a strong track record of fostering interdisciplinary collaboration and showcasing high-impact research, the conference plays a key role in advancing innovative solutions to urban challenges, promoting sustainable development, and shaping the future of intelligent cities. Its academic influence continues to grow through its rigorous peer-review process, distinguished keynote speakers, and inclusion in major publication databases.
